

# IPv6 Task Force France

Patrick.Cocquet@6wind.com

# Main IPv6 activities in France

- **Strong R&D activities**
- **G6 association**
- **R&D national programs (RNRT)**
- **AFNIC : native DNSv6; host secondary DNDv6**
- **ARISTOTE association**
- **6WIND creation on September 2000**
- **Operational deployment on RENATER**
- **First ISP commercial offers**

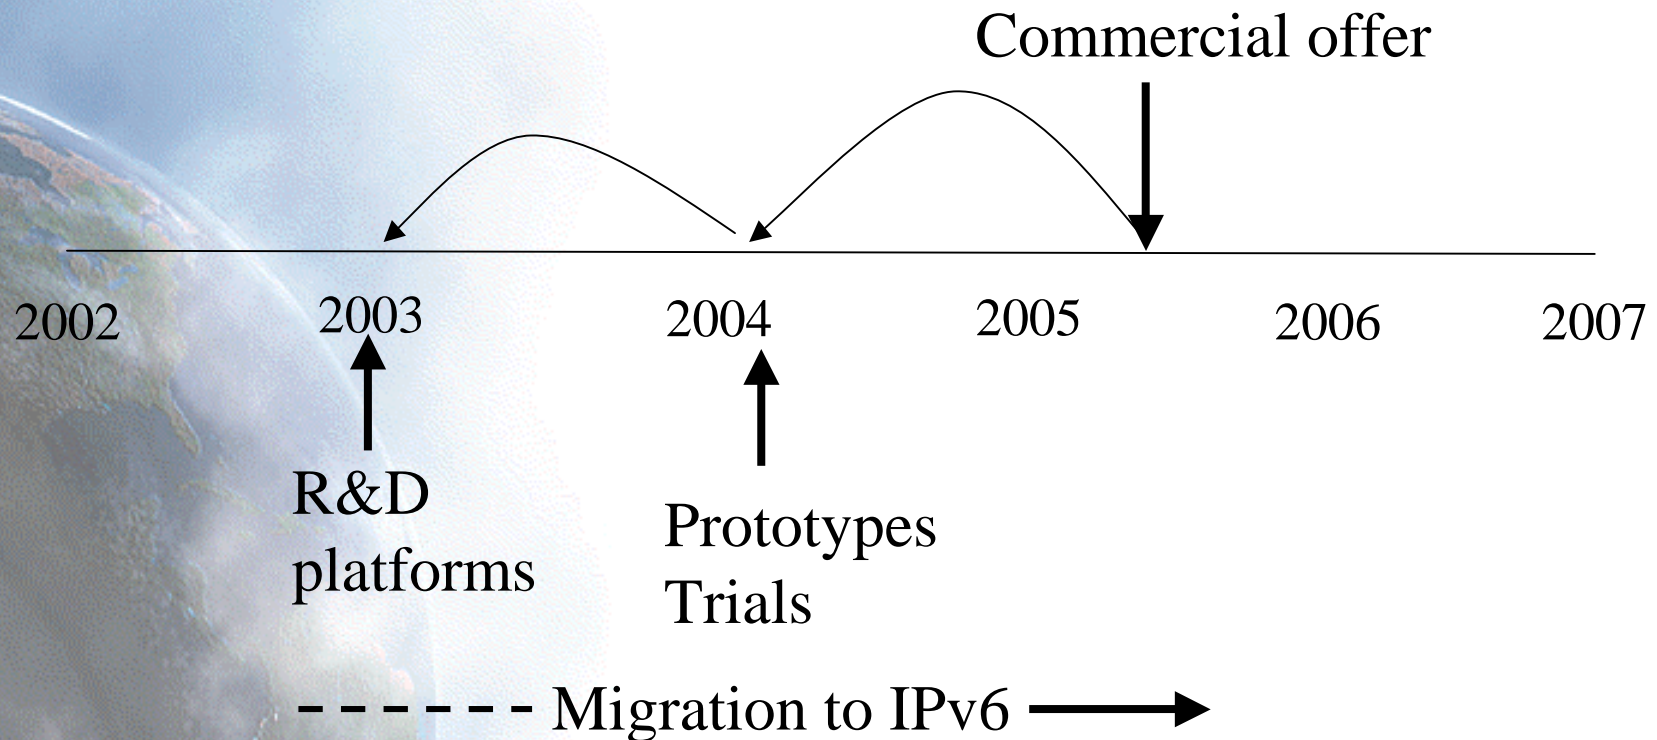

# Why the Task Force

- ***Vision of the future communication systems***
  - ✓ Capabilities, usage, impact on the society
- ***Identification of the sectors where IPv6 technologies should change the current models***
  - ✓ Industry, transport, distribution, health, education, leisure...
- ***Awareness***
- ***Deployment roadmap***
- ***Recommendations***

# What is important to identify

- ***The new applications***

# Participants

- ***The future users***
  - ✓ Industry sectors: car manufacturers, industrial goods, consumer products, network equipment manufacturers...
  - ✓ Service sectors: transportation, distribution, banking, health...
  - ✓ Software companies, integrators, consultants...
  - ✓ Telcos, ISPs, ASPs...
  - ✓ Administrations
  - ✓ ...
- ***Persons who may influence decisions***
- ***The Internet associations: ISOC, FING, IPv6 Forum...***
- ***G6 and the IPv6 actors: AFNIC, RENATER, RNRT Platforms, ARISTOTE, 6WIND... will provide the technical expertise***

# What the Task Force is not

- ***A new association***

## What the Task Force is

- *A working group with a 1 year program*
- *One main meeting every 2 months (half day)*
- *May be with dedicated working groups*
- *With a clear commitment from the members*

# Organisation of the meetings

- ***Reports from IPv6 related meetings***
- ***Presentation and debate***
  - ✓ 2 presentations per meeting
- ***Synthesis, identification of potential recommendations, agenda for the next meeting and choice of the subjects to prepare***

# Agenda

- ***Pre-meeting on September 25***
- ***First working session on October 28***

# Main next events

- ***Where are we with IPv6 ?***
  - ✓ Conference, Paris, October 29-30
  - ✓ <http://www.renater.fr/IPv6-2002/Programme.htm>
- ***Networld+Interop Paris***
  - ✓ IPv6 Pavilion, November 6-8
    - ✓ More than 10 companies & organisations
  - ✓ IPv6 available everywhere
- ***Deploying IPv6***
  - ✓ Conference, Paris, December 3-6
  - ✓ <http://www.upperside.fr/ipv602/ipv6intro.htm>
